

HEALTH AND SAFETY POLICY STATEMENT

It is the policy of Bonner Rail Limited to comply with the terms of the Health and Safety at Work Act 1974, and any related legislation, along with all applicable Network Rail disciplines, to provide and maintain a healthy and safe working environment for all, in so far as is reasonably practicable.

The company's health and safety objective is to minimise the number of occupational accidents and illnesses, and to ultimately achieve an accident free workplace.

Bonner Rail Limited will always provide sufficient resources for the management of health and safety. All employees will be provided with such equipment, information, training and supervision as is necessary to implement this policy and achieve its stated objective.

While the management of the company will do all within its powers to assure the health and safety of its employees, it is recognised that health and safety at work is also the responsibility of each and every individual associated with the company. It is the duty of each employee to take reasonable care of their own and other people's welfare, and to report any situation which may pose a threat to the well being of any other person. If an employee is unsure how to perform a certain task, or feels it would be dangerous to perform a specific job, then it is the employee's duty to report this to company management.

Bonner Rail Limited recognises that an effective health and safety programme requires continuous communication between all employees and at all levels. Bonner Rail Limited looks to set and monitor safety objectives using a continual improvement strategy.

Bonner Rail Limited also recognises and accepts its duty to protect the health and safety of all visitors to the company, including sub-contractors and temporary employees, as well as any members of the public who might be affected by its operations.

All injuries, however small, sustained by a person at work must be reported. Accident records are crucial to the effective monitoring and revision of this policy and must therefore be accurate and comprehensive.

This policy will be reviewed annually as part of the management review process to assure its continued relevance and adequacy.
